FOR IMMEDIATE RELEASE

[MADISON, August 15, 2023] Education Analytics, a mission-driven non-profit that uses data and analytics to improve outcomes for students and the education system, is excited to announce that Jami O’Toole will join as the organization’s Chief of Partner Strategy in September.

O’Toole is a leader in the Ed Tech and data spaces, having spent more than a decade helping non-profits, EdTech companies, school districts, and state agencies create more effective, cost efficient, and nimble solutions to enhance learning outcomes in the classroom.

“As Education Analytics grows and matures, we want to create an organization where more of the brightest minds can congregate to amplify each other’s work and create lasting positive change on our country’s public education system,” said Andrew Rice, Education Analytics CEO. “Jami is a key innovator in educational data technology and use who is intimately familiar with the challenges facing school systems. I know that Jami will help EA address those challenges as we further expand our partner capabilities.”

In her role at EA, O’Toole will shape and execute global strategy around partner management and project implementation, driving innovation within and across the organization, and fostering strong collaborations with both existing and new partners.

“I am honored to join EA and the Executive Team,” said O’Toole. “I am excited about the opportunity to help EA make actionable, scalable change for public education by effectively bringing innovative technologies like Ed-Fi into school systems around the country.”

As Senior Director of US Programs at the Michael and Susan Dell Foundation, O’Toole served as an advisor and partner for the Ed-Fi Alliance, a subsidiary of the Foundation that manages open-source software use by more than 870 school districts nationwide. She has actively managed investments totaling more than $130M, co-led diversity, equity, and inclusion efforts to ensure grantees’ more equitable access to capital, and served as a trusted, innovative thought leader in the student learning experience. O’Toole has served as a Board member for Nepris, BetterLesson, MasteryConnect, and currently serves on the board of InnovateEDU. She
holds a Bachelor’s of Engineering from Penn State University, and an MBA from Northwestern University’s Kellogg School of Management.

**About Education Analytics**

Since its founding as a non-profit in 2012, Education Analytics has partnered with more than 300 districts and more than 25 states to conduct research and develop rigorous analytics that support actionable solutions and drive continuous improvement in American education. Education Analytics works with the largest education systems in the country, small districts brought together by regional offices of education and collaboratives, state departments of education, leading research institutions and universities, charter management organizations, and fellow non-profit organizations. At any given time, Education Analytics supports more than 20 projects across the country.
